Information sheet

for articles

Printing date 14.05.2025

Version - No. 6

Revision: 14.05.2025

SECTION 1: Identification of the article and of the company:

- 1.1 Product identifier
- · Trade name: Wieland-A01
- · UFI: -
- **1.2 Relevant identified uses of the substance or mixture and uses advised against** No further relevant information available.
- Application of the article: Semi-finished product

• **1.3 Details of the supplier of the data sheet** • **Manufacturer/Supplier:** Wieland-Werke AG Graf-Arco-Straße 36 89079 Ulm (Germany) Tel.: +49 731 944 0 Fax: + 49 731 944 2799

• Further information obtainable from: ESG Affairs stefan.priggemeyer@wieland.com

· 1.4 Telephone number:

Factory security offices Phone: +49 731 944 2794 (Monday - Friday from 9 a.m. to 4 p.m.)

Remarks for information sheet:

Semi-finished products from aluminium and aluminium alloys are articles according to Regulation (EC) No. 1907/2006 (REACH Regulation). For articles there is no legal obligation to issue a safety data sheet. However, to be able to provide information typically included in a safety data sheet also for articles, the present information sheet for articles has been worked out. We expressly point out, that the information sheet for articles is a voluntarily issued information sheet which is not subject to the formal requirements of the REACH Regulation.

SECTION 2: Hazards identification

· 2.1 Classification of the substance or mixture

• Classification according to Regulation (EC) No 1272/2008 (CLP-Regulation): Semi-finished poducts do not fall within the scope of the CLP-Regulation and therefore they are not classified!

- · 2.2 Label elements
- · Labelling according to Regulation (EC) No 1272/2008: Void
- · Hazard pictograms: Void
- · Signal word: Void
- · Hazard statements: Void
- 2.3 Other hazards
- · Results of PBT and vPvB assessment
- **PBT:** Not applicable to metals
- · **vPvB:** Not applicable to metals.

SECTION 4: First aid measures

· 4.1 Description of first aid measures

• General information:

First Aid information refer to any dust which is generated.

The mixture in solid form does not pose any significant health hazard. However, melting or activites which produce metal dust, smoke or fumes can cause that metal dust enter the body in harmful amounts.

· After inhalation:

Supply fresh air and to be sure call for a doctor.

In case of unconsciousness place patient stably in side position for transportation.

· After skin contact: Immediately wash with water and soap and rinse thoroughly.

• After eye contact:

Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.

• After swallowing: Rinse out mouth and then drink plenty of water.

Trade name: Wieland-A01

• **4.2 Most important symptoms and effects, both acute and delayed:** No further relevant information available.

• **4.3 Indication of any immediate medical attention and special treatment needed:** No further relevant information available.

SECTION 5: Firefighting measures

· 5.1 Extinguishing media

· Suitable extinguishing agents:

The semi -finished product is not combustible in the form in which it is supplied. A fire caused by aluminium powder and swarf must only be tackled with dry sand or Class D fire extinguishing agents approved for this purpose.

• 5.2 Special hazards arising from the substance or mixture:

In solid form, the product is not flammable and poses no risk of fire or explosion. Processing (turning, sawing, grinding, filing, polishing, etc.) can produce finely dispersed aluminum particles or aluminum powder, which can heat up at room temperature in the air without energy input and can ultimately ignite. The ignition readiness depends very much on the grain size and the degree of distribution.

Finely dispersed aluminum powder can also form flammable gases (hydrogen) on contact with water, posing a risk of explosion.

The uncontrolled formation of finely dispersed aluminum during the processing of the semi-finished product in a closed room must therefore be avoided by means of suitable ventilation or extraction devices. Any dust generated must be removed by suitable means.

- 5.3 Advice for firefighters:

· Protective equipment:

If necessary, protective clothing and respiratory protection masks should be worn. The local fire brigade can advise you on risks and fire fighting.

SECTION 6: Accidental release measures

· 6.1 Personal precautions, protective equipment and emergency procedures: Not required.

· 6.2 Environmental precautions: Not required.

• **6.3 Methods and material for containment and cleaning up:** Collect the material and if necessary dispose it as waste according to section 13.

6.4 Reference to other sections:
 See Section 7 for information on safe handling.
 See Section 8 for information on personal protection equipment.
 See Section 13 for disposal information.

SECTION 7: Handling and storage

· 7.1 Precautions for safe handling: No special measures required.

· Information about fire - and explosion protection: No special measures required.

· 7.2 Conditions for safe storage, including any incompatibilities

• Requirements to be met by storerooms and receptacles: No special requirements.

• Further information about storage conditions: Store in dry conditions.

• 7.3 Specific end use(s): No further relevant information available.

SECTION 8: Exposure controls/personal protection

- · 8.1 Control parameters
- Additional information about design of technical facilities: No further data; see section 7.
- Ingredients with limit values that require monitoring at the workplace:

7429-90-5 aluminium

AGW (Germany) Long-term value: 1.25* 10** mg/m³

2(II);*respirable**inhalable; AGS, DFG, Y

7439-96-5 manganese

AGW (Germany) Long-term value: 0.02A; 0.2E mg/m³ 8(II);DFG,Y,10, 20

IOELV (EU) Long-term value: 0.2* 0.05** mg/m³ as Mn; *inhalable, **respirable fraction

7439-92-1 lead

MAK (Germany) Long-term value: 0.004E mg/m³ vgl.Abschn.XII

BOELV (EU) Long-term value: 0.15 mg/m³ as Pb

7440-50-8 copper

MAK (Germany) Long-term value: 0.01 A mg/m³ als Cu

· Ingredients with biological limit values:

7429-90-5 aluminium

BLV (Germany) 50 µg/g creatinine Test material: urine Sampling time: for long-term exposure: at the end of the shift after several previous shifts Parameter: Aluminum

7439-96-5 manganese

BLV (Germany) 20 μg/l Test material: Blood Sampling time: For long-term exposure: at the end of the shift after several previous shifts, end of exposure or end of shift Parameter: Manganese

7439-92-1 lead

BLV (Germany) 150 μg/l Test material: Blood Parameter: Lead

(Contd. of page 5)

SECTION 10: Stability and reactivity

• **10.1 Reactivity:** Not applicable.

· 10.2 Chemical stability: Not applicable.

• **Thermal decomposition / conditions to be avoided:** No decomposition if used according to specifications.

- · 10.3 Possibility of hazardous reactions: No dangerous reactions known.
- · 10.4 Conditions to avoid: No further relevant information available.
- 10.5 Incompatible materials: No further relevant information available.

· 10.6 Hazardous decomposition products: No dangerous decomposition products known.

SECTION 11: Toxicological information

· General information:

The solid product does not pose a health hazard if handled properly.

Effect on the skin: No effects. Effect on eyes: No effects. Sensitization: No effects.

Endocrine disrupting properties: None of the ingredients are contained.

SECTION 12: Ecological information

- · 12.1 Aquatic toxicity: No further relevant information available.
- **12.2 Persistence and degradability:** No further relevant information available.
- · 12.3 Bioaccumulative potential: No further relevant information available.
- **12.4 Mobility in soil:** No further relevant information available.
- General notes: Semi-finished articles from aluminium and aluminium-alloys are not soluble in water.
- 12.5 Results of PBT and vPvB assessment
- **PBT:** Not applicable to metals.
- · vPvB: Not applicable to metals.
- **12.6 Endocrine disrupting properties:** The product does not contain any substances with endocrine disrupting properties.
- 12.7 Other adverse effects: No further relevant information available.

SECTION 13: Disposal considerations

· 13.1 Waste treatment methods

• **Recommendation:** Contact manufacturer for recycling information.

· European waste catalogue

12 01 03: non-ferrous metal filings and turnings

16 01 18: non-ferrous metal

for non-contaminated wast

SECTION 14: Transport information

· 14.1 UN-Number	Void	
 14.2 UN proper shipping name 	Void	
 14.3 Transport hazard class(es) 	Void	
· 14.4 Packing group	Void	
· 14.5 Environmental hazards:	Not applicable.	
• 14.6 Special precautions for user:	Not applicable.	
 14.7 Transport in bulk according to Anno MARPOL73/78 and the IBC Code: 	ex II of Not applicable.	

SECTION 15: Regulatory information

- 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture
- · Chemical safety assessment: Void.
- · Directive 2012/18/EU
- · Named dangerous substances ANNEX I None of the ingredients is listed.
- · Waterhazard class: Generally not hazardous for water.
- · Other regulations, limitations and prohibitive regulations
- Substances of very high concern (SVHC) according to REACH, Article 57 7439-92-1 lead

SECTION 16: Other information

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific article features and shall not establish a legally valid contractual relationship.
